

Join the Fun with the Larkfield Amateur Radio Club!

The Larkfield Amateur Radio Club is based in western Suffolk County Long Island, New York. We support a host of amateur radio activities including several local amateur radio repeaters that have weekly nets.

We provide support for the Huntington RACES public service group that works closely with Huntington Hospital and the Towns Emergency Operations Center. We have in-person monthly meetings and run Volunteer Exam sessions using our own member Volunteer Examiner Team.

Our Field Day in June is quite an event!
