

1
Spring Back 7 comes complete with a storage bag.

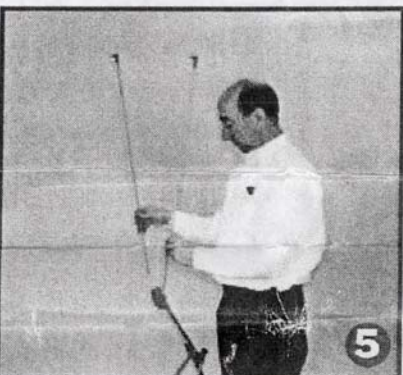

2
Remove the contents of the bag.

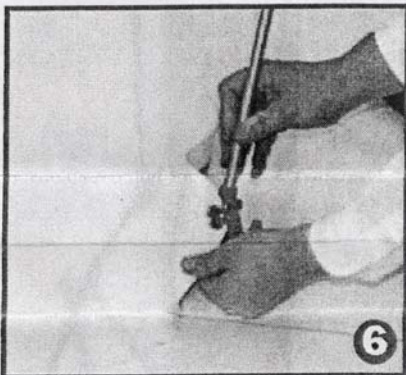

3
Set-up the base by expanding the tripod style legs.

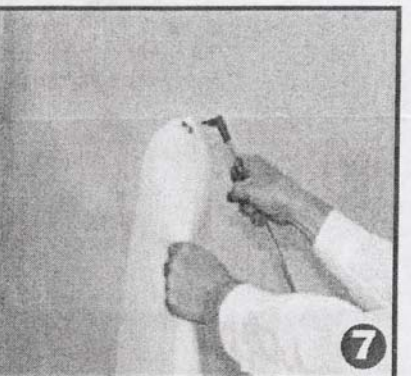

4
Adjust the hub size to the correct graphic height by turning the tension screw clockwise. Be sure to not over tighten otherwise breakage may occur.

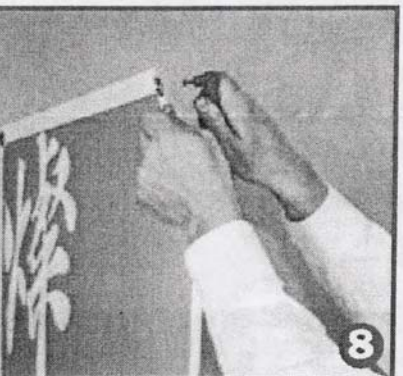

5
Install the upper arms into the adjustable hub.

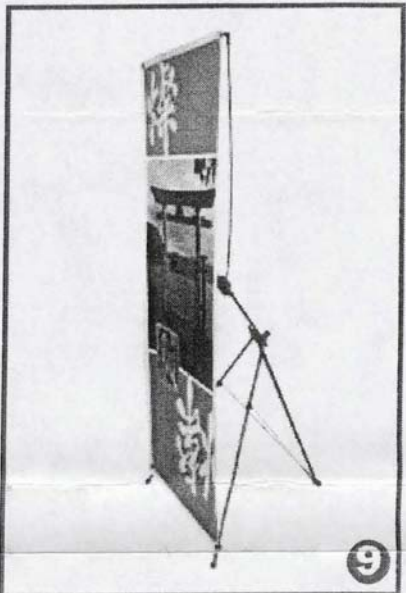

6
Mount the grommets, located on the bottom of the graphic, to the bottom hooks.

7
Mount the grommets, located on the top of the graphic, to the top hooks.

8
Once the graphic is installed, using the tension screw, make your final height and tension adjustment to fully secure the graphic to the stand.

9
Your completed unit should stand upright.
