

1999 ARRL Field Day

Imagine Alex Trebek reading this as the Final Jeopardy answer: "It's the most popular operating event in Amateur Radio."

Of course, we all know that the correct question is "What is Field Day—the great American/Canadian operating event?" And what an event ARRL Field Day 1999 turned out to be! A record number of 2,108 logs were received from clubs and individuals across the US and Canada showing that another record total of 31,266 people participated at sites across our continent—and beyond. A total of 1,470,218 QSOs were completed—an increase of about 9% from 1998. Digital QSOs were down slightly, but CW QSOs broke the half-million mark (538,936) and phone QSOs totaled 926,872.

Remembering that Field Day is more an operating event testing emergency prepared-

ness and less a contest, more than 90% of the entries again reported using emergency power. ARES/RACES groups, Red Cross affiliates, and clubs working with Emergency Management and other agencies were out in force in our annual attempt to educate the public on the role Amateur Radio plays in our communities.

While not a contest in the purest sense of the term, many clubs look at this event as a chance to put their names in the record books. In 1999 several groups set scoring records in different categories. The W3AO team, listed as Potomac Valley Radio Club Group 1, set a new mark in the 7A category with 26,224. This group of operators was the leading scorer for Field Day 1999. The Cherryville Repeater Association operating W2GD now holds the record for the 5A category with 20,520 points. In the 13A category, the

George, K4TFJ, discusses antenna theory with a local Boy Scout group at the K4BFT Field Day in Huntsville, Alabama

Mountain scenery makes a spectacular backdrop for the K7PJT Field Day operation, with Andrew, KF7BH, working on 20 meters at 5500-foot Gunsight Butte in Oregon.

Glenn, KC4LXV, and Tommy, K4BNP, handle the media at W4MOE, the Western Carolina ARS operation in Asheville, North Carolina. The building in the background is part of the campus of Asheville Buncombe Technical College.

Boy Scout Venture Crew 73, K5BSA, at their Camp Whispering Cedars location in Dallas. ALCATEL USA of Richardson/Plano, Texas sponsors the Crew.

No, these aren't the YLs ready to set up the cover dish dinner for their OMs. These are the ops of the KØVA Ladies Amateur Radio Association of Orange County, California.

Jeff, KD7DKF, tries his hand at running stations at KC7YYM, the Tonto Amateur Radio Association site in Payson, Arizona.

"Bus" Ethridge, K4IX, logging a CW QSO for the K4IX "Buster's Beach Bums" in Norfolk, Virginia.

Woodbridge Wireless Association carved their call W4IY into the record book with their 22,780-point effort. The Nashua Area Radio Club broke new ground with a 24,358-point effort in the 28A category as N1FD.

NØUR now holds the 1B1 record with his 6,700-point effort from Minnesota. N4BP set a new 1B2 record from the SFL section with a score of 8,560. NA5TX finished with a flourish and set a new record in the 1D category with 5,800 points. Making big noise in the 2D category was the record 10,758 points posted by the Central Virginia Contest Club. NØNI set a 3E record with 12,480 points and W3PP finished out this year's record setting scores with a 10,504 performance in the 4E category. Congratulations to all of the groups and individuals who took their categories to the "next level."

The biggest hit in 1999 may have been the inaugural Field Day pins. Thousands of these attractive keepsakes were ordered. If your club hasn't ordered, there are a limited number left. Contact the Contest Branch if your

group is still interested. There will be a new design for this popular item in 2000. Order yours early when the announcement appears in *QST* next spring.

Operating portable from 5500 feet on Gunsight Butte, Oregon is a challenge. So is setting up as an E-class station from the comfort of your back yard. Whichever route you choose, Field Day is always a place for new friends, and fun. Even noncontesters seem to get caught up in the excitement of Field Day, as was demonstrated by the numerous visitor logs and hundreds of photographs submitted to Headquarters. A very limited selection is offered with this report.

Field Day 2000 will be held June 24–25. Start planning now for the last Field Day of the 20th century. New for FD2000 will be a new 100-bonus point category for setting up a demonstration of APRS, ATV or SSTV. To help get the Field Day spirit flowing, enjoy these selected comments from the Field Day operation of clubs from across the country. Remember: Field Day is always the fourth full weekend in June. Maybe Alex can use that as the Final Jeopardy answer one day!

The Calm After the Storm

The Clarksville (TN) Amateur Transmitting Society (CATS) had an active 1999 to say the least. Their efforts in response to the devastating tornado of January 22, 1999 have been well chronicled. But Field Day 1999 offered the opportunity for the town of Clarksville to officially offer its thanks for their efforts during those hectic days.

The CATS operated club call KF4L during Field Day as 8A and had their usual successful operation. They ran almost all modes, including SSTV, digital, SSB and CW. With over 70 club members and visitors in attendance, they showed the usual FD spirit. Almost everyone—member and visitor, ham and non-ham alike—got into the act by participating on the air. Activity was especially enjoyable on 10 and 6 meters, and for the first time, they even generated activity on

2 meter SSB. It was very encouraging for the VHF enthusiasts.

One of the highlights was the visit by the Mayor of Clarksville, the Honorable Johnny Piper. At the opening ceremony on Saturday, Mayor Piper read a proclamation designating the day as Amateur Radio Appreciation Day in Clarksville. He cited the continued contributions of the amateur community throughout the year, and especially recognized amateur efforts during the devastating tornado and their work in the aftermath. While touring the site, Mayor Piper also engaged in a QSO with VA3FIN on 6 meters.

From the grilled bratwurst and German potato salad at the Saturday night cookout to the over 1000 QSOs completed during the event, Field Day 1999 was the best yet in Clarksville. It was a great respite following the real-life needs earlier in the year.—N3ORX

A Dad's Gift To and From His Son

Since my club was not participating in Field Day, I decided to set up as 1E and invited the family to participate. My son Eric readily accepted my offer.

From the start, I explained that ham radio is a hobby, and there is no way that one can "mess-up" (from a practical standpoint, that is.) There are ways of doing things and there are better ways of doing things and that is just about it. I also told him if he got bored, he could go do other things and I would not be upset at all. With this, Eric was ready for the tedium, the excitement and the unexpected.

We made a 20-meter ground-plane vertical and an 80-meter dipole just for the event. Eric got his first taste of soldering as we connected the wire to the insulators. We used a slingshot to launch the line through some pine trees, then hoisted our "creation" into the air. Eric learned about "Murphy" when we encountered problems getting the feed line into the basement. Though we missed the 1800 UTC start, we were finally ready. I

knew my son had a competitive spirit, but was afraid to guess his reaction to a radio contest.

To say Eric enjoyed Field Day is an understatement. At first, he kept the dupe sheet while I operated and logged. I answered his questions as to the meaning of QSL and QRZ and 73 and such. After a couple of hours, Eric suggested we stay on one frequency and let stations come to us. The ensuing pile-up did prove a bit much for him, so we stopped running and went back to "search and pounce."

Once fully into the swing of things (and with some "cheat sheets" as to what to say), Eric started to make some contacts. His first was with W5SI—and judging from his reaction you would have thought he had just hit a grand slam or made a game-winning touchdown! The elation quickly turned "back to business" as he quickly turned the dial. A verbal "all right" accompanied each contact he completed. He was thrilled beyond belief.

After finishing our final log sheet page, my son summed up the past 24 hours when he commented "The magic has ended..." Maybe not. I am sure there will be a lot of other Field Days for my eleven year old son, but I can't imagine how any other can be as exhilarating as his first one. I know it made a lifetime of memories for both of us.—K4OE

How to be 1A from the Comfort of your Own Home

With respects and acknowledgement to my e-mail circle, here are eight helpful hints on how to live the 1A experience while operating as 1D.

- Get some ticks, mosquitoes and gnats and release them in your house.
- Turn off the air conditioner and sit under a heat lamp.
- Run your Lawn Boy at idle continuously by your operating position.
- Eat large amounts of charred hot dogs, stale chips and cookies while drinking warm soda and stale coffee.
- Wear week old musty clothes from the bottom of your hamper.
- Hose down your operating table and rig at least once.
- Invite a skunk or family of opossums to live in your rec room.
- Before starting to operate, carry 100 concrete blocks up to the roof of your house. When you are finished, carry them back down.—WA5BDU

Maritime Mobile

Mark, N2LMD, Dave, WB2ZTY and I decided to try a maritime mobile from Mark's aptly named new boat the *Fine Business*. Our operating area would be the Atlantic Ocean and the Delaware Bay, just off the coast of the SNJ section.

The plan was to use a Kenwood 450s and an 80 through 10 vertical antenna with a custom mount (which had to be guyed so we could operate while in motion). Peering into the wheelhouse I saw the small space which would be our operating position for the 24

That's Joe, KF4VLI, taking mobile antennas in a new direction—literally—while operating the "slush puppy mobile" on 2 meters at the Rhea County Amateur Radio Society. They used the special-event call sign K4D.

Peter, W6QEY, adjusts the balloon-supported 40-meter wire vertical at WR6WR.

Keuka Lake (New York) ARA president Roy, KB2WXV, demonstrates ham radio to his son Kristopher (awaiting his license) and his friend Luke.

hours of Field Day. I hadn't been active for some time, but I purchased a pair of Bencher paddles and a keyer with which to ply my dormant CW skills.

Boy was it hot! We sailed into Delaware Bay and headed to the Atlantic, positioning ourselves about four miles off Cape May. We were a little late getting on the air, but our first FD QSO happened on 40 meters with the *Fine Business* rolling in some pretty big swells.

After a couple of hours of 40 meter SSB, I wanted to try snagging some of those 2-point CW QSOs. But my stomach—aagh! We were all beginning to get a bit seasick. "Cap," I said, "let's head into the Bay, find a quiet place to operate and bed down there for the night. I want to light up the ether."

So, we spotted a floating irrigation pipe in some deep water just off the marshes at Bidwell's Basin. The pipe would protect us from other boats' wakes. The situation was beginning to remind me of Bogart and Hepburn in "The African Queen."

After operating all night—complete with bugs and iffy propagation—I finally crashed with Mark manning the radio. When I awoke a few hours later, those guys were fishing! Fishing, with only two hours remaining in Field Day? Exhausted, but knowing we had had a good time, we finally called it quits.

So what does maritime mobile mean? Sunburn, bugs, moonlight, "stay in the chair and on the air," wet your head with water to keep the CW ear alert, spend time with old friends, and fish when you are tired of the rig!—N8LXR

A "Titanic" First for Two Clubs

The Three Hills ARC (THARC) and the Central Alberta Radio League (CARL) decided to pool resources as they both participated in their very first Field Day operation. The cooperative efforts paid off in an exciting Field Day—Canadian style.

In spite of heavy rains dampening the grounds, the two clubs pushed ahead with the spirit that "emergencies don't wait for good weather." And improvisation was the watchword for the event. For example; after building a "potato gun" to string antenna supports, they discovered they had no potatoes! Dirt clods filled the void and soon the antennas were in place.

Starting with the "Welcome Sign" and Canadian flag that greeted visitors at the entrance to the site, the operation quickly took on the appearance of a bustling village. Signs directed members and visitors alike to their appropriate locations—from Operating Stations to the Culinary Station to the Sanitation Station. A total of 25 operators took turns at receiving and transmitting and numerous visitors logged into the site. Highlighting the visitor's experience was a replica of the Morse code key and log used aboard the HMS *Titanic* on that fateful night in April 1912. The joint operation was titanic in its planning and size. But it enjoyed a more favorable outcome than the ill-fated ship, as they cruised home to a successful weekend.—VE6MWE, VE6PFV and VE6MIM

Scores

Class A stations are clubs or groups operating with more than two operators. Score listings are grouped according to the number of transmitters in simultaneous operation. The listings show club or group name, call sign(s) used, total number of QSOs, number indicating power output used (5 is less than 5 W, 2 is less than 150 W; 1 is more than 150 W), number of participants and total score including bonus points and ARRL section. Scores are listed from highest to lowest in each class. Class B stations are portables manned by one or two operators. When there are two operators, the other operator's call is listed in parentheses, if it is known. Class C stations are mobiles. Class D stations are home stations using commercial power. Class E stations are home stations using emergency power.
