# Call for Speakers: ARRL Learning Network

ARRL is readying the **ARRL Learning Network** — a series of webinars presented by member-volunteers, for members. Like hamfest forums and radio club presentations, these webinars are intended to help members **get more active, involved, and engaged in amateur radio.**

Invited guest presenters will cover topics from three categories:

- Personal Communications - like getting started in the digital modes, or radio sport
- Emergency communications - like tips for public service communication volunteers
- Radio electronics and technology - like QRP kit building, or understanding propagation

Presentations should be short; 30 minutes plus a 15-minute Q&A. Presenters will use live video to share their knowledge, advice, smiling faces, PowerPoint slides, screen-sharing, or other demonstration items. If you've given a forum, you already know what to do! Presentations will also be recorded, so members can view these any time afterwards.

**It's easy to get started. Complete the online Speakers Form:**

[www.arrl.org/ARRL-Learning-Network-Speakers-Form](http://www.arrl.org/ARRL-Learning-Network-Speakers-Form)

Selected presenters will be contacted and invited to schedule their webinar from a list of upcoming available date/time slots. An ARRL staff member will help coordinate the details with you, so you'll be ready for your presentation day!

Thank you. Together **we're advancing the art, science, and enjoyment of amateur radio!**

73, **ARRL Learning Network** (Beta)
